### **Abstract**

The "Get Together" Project aims to fulfill the purposes expressed in the statement CNE/CP 06/2002, as well as regulatory amendment brought to Law 9394/96 of Guidelines and Bases of National Education and the Law 11.645/2008 - teaching culture and history about african/indian from Brasil, contextualized for the teaching and learning of English for kids at Centro Social Mangueira School of Prefeitura do Salvador.

This project offers an engaging discussion on cultural identities between different cultures by building a reflection on the man as far as covering their individuality, as its position in the social and collective, in addition to providing research on African-Brazilian-American culture, in its most varied expressions, so as to intertwine the English language with the various areas of knowledge: History, Geography, Science, Arts, Mathematics, Philosophy etc.

The main objective that guides the project is to work the issue of cultural diversity among the triad: Africa-Brazil-USA, in a process of identification with our cultural identities, and to rescue the historical aspects citizenship. Through this project, kids with 6 and 15 years, during the year 2008, are taking the opportunity to build knowledge about their identity and the other in the discipline of English.
