### Objectives
This subject aims to develop students’ ability to deliver effective discipline-specific oral presentations.

### Intended Learning Outcomes
Upon completion of the subject, students will be able to:

a. organise the content of discipline-specific oral presentations systematically and coherently
b. deliver professional presentations confidently and effectively, using appropriate and effective verbal and non-verbal communication skills
c. interact appropriately and confidently in the question-and-answer session of professional presentations

### Subject Synopsis / Indicative Syllabus
The content is indicative. The balance of the components, and the corresponding weighting, will be based on the specific needs of the students.

- Catering for the purposes of professional presentations and the audience
- Recognising differences in language style between spoken language suitable for presentations and formal written language
- Identifying and practising the verbal and non-verbal interaction strategies in professional presentations
- Presenting issues and controversial aspects in a critical manner
- Developing strategies to respond to challenging questions during the question-and-answer session
- Improving pronunciation, accuracy and appropriateness of language commonly used in oral presentations
- Using support materials effectively in professional presentations

### Teaching / Learning Methodology
The study method is primarily seminar-based. Activities include teacher input as well as individual and group work involving discussions and mini-presentations. Students will be referred to information on the Internet and the ELC’s Centre for Independent Language Learning.

Learning materials developed by the English Language Centre are used throughout this course. Additional reference materials will be recommended as required.
## Assessment Methods in Alignment with Intended Learning Outcomes

Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes:

The ELC will design and use an assessment task that incorporates the task requirements of oral presentations in the discipline of health technology to assess students’ ability in achieving the three learning outcomes of this subject.

## Student Study Effort Expected

**Class contact:**

- **Seminars**: 14 Hrs.

**Other student study effort:**

- **Classwork-related and assessment related preparation and self-access work**: 28 Hrs.

**Total student study effort**: 42 Hrs.
